DANA SPICER™

Spicer® Medium Duty **Commercial Vehicle Series Driveshafts**

Spicer® – Demand the Best. Demand Genuine Spicer.

For more than a century, the Spicer® name has built a legacy of success with quality drivetrain solutions. Genuine Spicer products are manufactured to the same high standards as Original Equipment because in most cases, they are OE parts. We offer a variety of drivetrain solutions and service parts for light vehicle, commercial vehicle, off-highway, military, industrial, and performance applications.

Aftermarket Products
Dana manufactures Spicer driveshafts, axles, transmission parts, and related components for light-vehicle, commercial vehicle, off-highway, military, industrial, and performance applications. This product line includes driveshafts formerly branded as GWB™ and Italcardano™ while legacy axle/ transmission marques include Clark™, Clark Hurth™, Comaxle™, Sige, and Kirkstall™.

Market Applications:
- Light Vehicle
  - Passenger Cars / SUVs / Pickup Trucks / CUVs / Light Commercial Vehicles
- Commercial Vehicle
  - Medium and Heavy Trucks / Buses
- Off-Highway
  - Construction / Agricultural / Forestry / Mining / Material Handling / Industrial

Medium Duty Driveshafts

Every original Spicer® driveshaft is designed, engineered, and manufactured by Dana to the highest standards of quality and performance expected by original equipment (OE) manufacturers – because Spicer is THE original equipment manufacturer. Spicer driveshafts provide the top performance, reliability and durability of OE products, in a robust, cost-effective, virtually maintenance-free aftermarket solution.

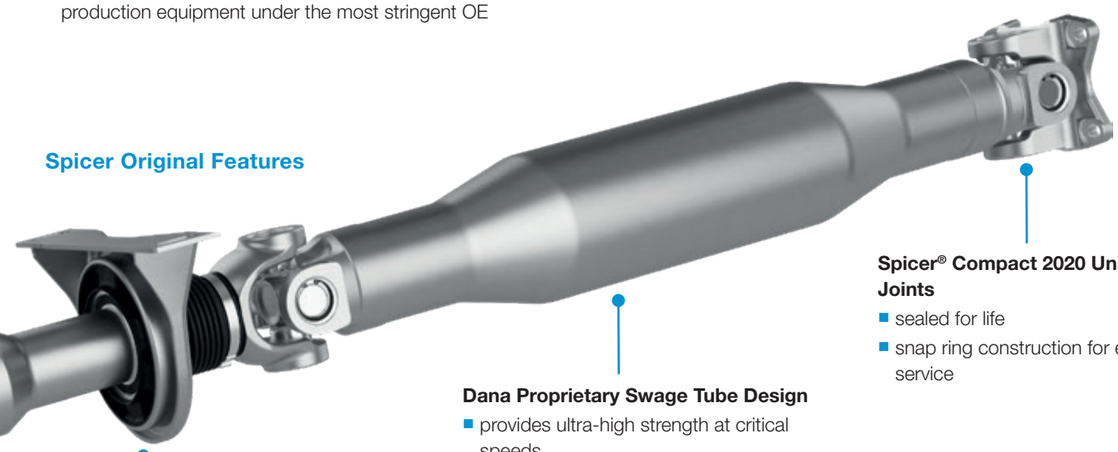

As the global leader in driveline technology, Dana combines its commitment to innovation and original equipment excellence with the quality of its Spicer products to deliver superior solutions that are driving the aftermarket industry.

Highest Standards of Engineering, Technical and Manufacturing Excellence

Dana has incorporated its technical expertise and proprietary processes to manufacture superior, high quality advanced original equipment driveshafts and driveshaft components for the medium duty commercial vehicle aftermarket:

- Fully tested to over 335,000 testing cycles, including full torsional testing at high torque and low speed
- Precisely manufactured and assembled on OE production equipment under the most stringent OE assembly procedures, reducing risk of failure and ensuring the highest level of quality control
- Components are fully interchangeable with original equipment components
- Meet the aftermarket driveshaft requirements of medium duty commercial vehicle fleets globally
- During assembly, Spicer driveshafts undergo dynamic, controlled, high-speed balancing at 3,500 RPM - equivalent to driving the Autobahn at 100 km/h. The rigorous testing ensures that superior quality and maximum durability, safety and performance are maintained long term, and under real-world driving conditions

Spicer Original Features

Spicer® Compact 2020 Universal Joints
- sealed for life
- snap ring construction for ease of service

Dana Proprietary Swage Tube Design
- provides ultra-high strength at critical speeds
- clearances directly comparable with OE standards
- perfect fit to vehicle

Spicer® Center Bearings
- aftermarket industry first
- interchangeable with OE components
- also comes as complete replacement kit unit: Dana is the only manufacturer that has an entire kit available to replace, repair or refurbish all components of Spicer® Center Bearings

A complete list of Dana Spicer products for medium-duty vehicle applications is included on the following page. All Spicer products are shipped from Dana's European Distribution Center in Győr, Hungary. To stay up-to-date on Spicer products and news, subscribe to our newsletter **SpicerNews.com.**

U-Joints

Responding to customer demand for its high-quality aftermarket parts, Dana extended the product range for all current production and previous Mercedes-Benz Sprinter models to include staked U-Joints. They are produced to original-equipment (OE) standards – with applications in the highly-popular transport vehicle.
