

Genuine Spicer® Power Divider Gear Changes – New Spicer Individual Part Release – Part Number Information

Date: **Thursday, March 5, 2020**

To: **All Dana Aftermarket Group Spicer® Heavy Axle Customers**

Affected Models: **Tandems - DS404, DSP40, DSH44, DST40, D155, D170 & D190, D590, D156**

Starting in March 2018 and ending in July 2019, new designs of Dana power divider gearing were phased into production in the above listing of models. Changes were made to the beveled teeth of the helical side gear, inter-axle differential and output side gear to increase durability. Because of this design change, Spicer® power divider gears made before these changes are NOT interchangeable with the newly designed gears.

Dana Aftermarket is now releasing the new design of the individual gears to be purchased separately. Individual part numbers are below. Interchangeability between the old and new design must be considered before replacing one-for-one. The conversion kits to convert old to new design still exist and are referenced in HAXL-PNI-096R2.

To compare designs and for more information on the change, please reference bulletin HAXL-PNI-096R2.
