

New Product Announcement: Spicer[®] SPL140SFX Service-Free Universal Joint

Date: March 2021

To: All Dana Aftermarket Group Spicer[®] Driveshaft Customers

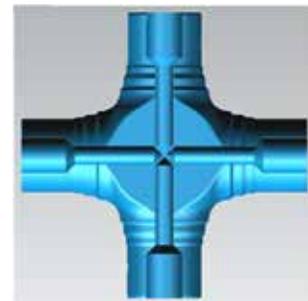

Dana Aftermarket Group is pleased to announce the release of our new Spicer SPL140SFX service-free universal joint!

With SPL[®] service-free* universal joint kits, you can lower your overall operational costs by eliminating the need for lubrication over the life of the universal joint. Get the original-equipment quality that you expect from the SPL140 universal joint, plus the reliability that a service-free option can deliver for you.

As with our Heavy Duty series SPL170, SPL250, and SPL350 service-free universal joint kits, our new Spicer SPL140SFX is supplied with a pre-determined amount of Spicer synthetic grease, which must be added to the journal cross reservoirs and bearing cup assemblies prior to installing into the drive-shaft yokes. **However, the new SPL140SFX pre-greasing procedure is slightly different, due to a "tube" grease container versus the "packet" grease container used in the Heavy Duty series.**

New SPL140SFX pre-greasing procedure:

1. Snip tip of new grease tube approx. 1/2" from the end
2. Poke fairly large hole in grease tube
3. Screw tip onto grease tube
4. Fold over the closed end of the tube (similar to a toothpaste tube), which will help with squeezing grease out
5. Fill the four cross reservoirs one at a time by starting with the tip fully inserted and backing it out as the grease fill rises; fill to the end of the cross trunnions
6. Pre-grease the four bearing cup assemblies by inserting one thin bead of grease around the inner diameters at the midsection of the rollers

*** Inspections must be performed at each maintenance interval to check for wear, damage, or looseness that could affect lubricant life and lead to driveline failure.**

Pricing information for SPL140SFX can be found on your DanaAftermarket.com account. Please contact your Dana representative for additional information. Thank you for your continued support of Spicer Aftermarket products!
